

**Journal of Structural and Construction
Engineering
(JSCE)**

Volume 6, Issue 1, June 2020

Serial No. 22
ISSN (Print): 2476-3977
ISSN (Online): 2538-2616

Publisher

Iranian Society of Structural Engineering (ISSE)

Responsible Director

Dr. GholamReza Havaei

Chief Editor

Prof. Hamzeh Shakib

Editorial Board (in alphabetical order)

Dr. Mehdi Azhdary Moghadam, University of Sistan & Baluchestan
Dr. Morteza Eskandari Ghadi, University of Tehran
Prof. Abolfazl Eslami, Amirkabir University of Technology
Dr. GholamReza Havaei, Amirkabir University of Technology
Prof. Mohammad Zaman Kabir, Amirkabir University of Technology
Dr. Abolghassem Keramati, Amirkabir University of Technology
Prof. Mohammad Taghi Kazemi, Sharif University of Technology
Prof. Ali Akbar Ramezanzadeh, Amirkabir University of Technology
Prof. Mohammad Hassan Sebt, Amirkabir University of Technology
Prof. Hamzeh Shakib, Tarbiat Modares University
Prof. Javad Vaseghi Amiri, Babol Noshirvani University of Technology
Prof. Mahmoud Yahyaei, Khajeh Nasir Toosi University of Technology

Interior Manager

Executive Director and Public Relations

Aims and Scope

Journal of Structural and Construction Engineering provides a forum for a broad blend of scientific and technical papers to reflect the evolving needs of the structural engineering and construction communities. Journal of Structural and Construction Engineering also publishes review articles, technical notes, and a diary on national and international events related to any aspect of structural and construction engineering. We invite you to contribute to the success of this journal by submitting your articles.

Contact Details

Iranian Society of Structural Engineering, No. 76, Floor No.2,
North Shahid Azodi street, Karim Khan Zand street, Tehran,
Iran
Postcode: 15976-33131

Articles

2 / Message from responsible director (in Persian)

5-26 / The flexural behavior of multi-layer high performance self-compacting hybrid fibers concrete slabs

Amirhosein Sahraei moghadam; Fereydoon Omidinasab; ahmad dalvand

27-42/ Strengthening of Concrete Beams Using Glass Fiber Reinforced Polymers

Moosa Mazloom; Morteza Mehrvnd; Azim Savari Pour

43-61 / Study of the fresh and hardened properties of fiber self-compacting concrete

Sasan motaghed; mehdi ghobadi; mahbobeh mirzaie Aliabadi; Yadollah Gharayebi

62-92 / Experimental and Numerical Investigation of Yielding Connection in Steel Moment Frame and Infill Concrete 3D Panel

GholamReza Havaei

93-106/ Debonding damage detection in concrete filled tube columns by experimental modal data

Omid Rezaifar; Adel Younesi; Madjid Gholhaki; Akbar Esfandiari

107-124/ EVALUATION OF THE INTERACTION OF STEEL SLIT PANEL-FRAME

Ahmad nazifi; Hashem Shariatmadar

125-147/ Fragility curves for seismic assessment of reinforced concrete buildings with shape memory alloy in regular, torsional irregularity and extreme torsional irregularity

Pedramomidan; Hamid Saffari

148-165/ The Geometrically Nonlinear Dynamic Response of Metal-Ceramic FGM Plates under the Blast Loading

Reza jome manzari; Farzad Shahabian

166-181 / Evaluating and comparing the effect of zeolite, micro-silica, and fly ash on the mechanical properties of recycled concrete made of 100% recycled aggregates

Seyed Fathollah Sajedi; Hasan Jalilifar

182-205 / Damage Evaluation of RC Columns strengthened with Novel Fiber Composites under Blast Loads using Pressure – Impulse Diagrams

Hashem Jahangir; Mohammad Reza Moarefzadeh

206-222/ Study Effect of Ni-Ti Shape Memory Alloy on Ductility of Steel Plate Shear Walls

Madjid Gholhaki; atefe khosravikhor; Omid Rezaifar

223-249 / Analysis of the Steel Plate Shear Wall of Damage Index with pushover Method and Comparing with Special Steel Moment Frame

Ghasem pachideh; Madjid Gholhaki; amir saedi daryan

250-267/ Experimental Study of the Performance of Two-way RC Slabs Retrofitted with High Performance Fibre Reinforced Cement Composite (HPFRCC) prefabricated laminates

M. Mahdi Fallah Bafghi; Mohammad Kazem Sharbatdar;
Ali Kheyroddin

268-283/ Probabilistic investigation of the effect of reservoir height on seismic performance of concrete gravity dams using Monte Carlo simulation

Majid Pasbani Khiavi; Arash Ghaed Rahmati

284/ Message from responsible director in English
